DAHLIAS AND GLADIOLI

To Our Patrons

IT is with great pleasure that I present to you my 1928 Catalogue of Prize-Winning Dahlias. It is my constant aim to offer you the newest and best in Dahlias and Gladioli. There is certainly great pleasure in store for the Dahlia enthusiast the coming year, for there are many new outstanding varieties to be introduced. The past season has been a banner one for me. Besides winning many first prizes and cups, I again won First Prize at Boston for largest and best exhibit. The picture on the cover of this Catalogue is Andreas Hofer; this won the Silver Cup for best basket at the Boston Show, 1927.

I wish to thank you one and all for the very liberal treatment with which you have favored me during the past year, and assure you that I will do my best to warrant a continuance of your confidence.

I make a specialty of growing Green Plants which will give fine results if given proper care, and are less liable to become diseased than tubers. Green Plants should be planted quite deep, four to five inches. Price of plants will be one-half that of tubers, unless otherwise stated.

Sincerely yours,

EDGAR W. DARLING

My New 1928 Introductions

FAIRHAVEN GOLD. This I believe to be the best Hybrid Cactus of its color to date. This dahlia has great depth, as well as large size, and is produced freely on long, stiff stems. A medium, low grower. Color a pure glistening gold, beautiful formation, mentioned in the Garden and Home Builder Dahlia "Roll of Honor", 1927. Stock limited. Tubers, \$10.00. Plants, \$5.00.

NASHAWENA. (Dec.) This new novelty won a first prize at Boston, 1927, for best Vase of Seedlings in the Decorative Class. When first opening the back petals are a strawberry color, changing to salmon as the blossom matures. The center is a lemon yellow, streaked with scarlet. The petals twisting at the points make the form very beautiful. Long sturdy stems hold the blossoms erect. It is a vigorous grower and blooms early. The very large flowers were much admired the past season. Tubers, \$10.00. Plants, \$5.00.

MISS FAIRHAVEN. (Dec.) It will be hard to get a better combination of colors than is produced in this large fluffy decorative. Color a beautiful shade of pink with the petals veined and streaked creamy white, the base of the petals yellow. Plants are strong and vigorous and blooms freely on long stiff stems. Tubers, \$5.00. Plants, \$2.50.

The Following Are Some of the Choicest 1928 Introductions from Other Growers

COLONEL CHARLES A. LINDBERG. (F. & M.) A huge hybrid cactus of a beautiful rose du Barry shade, overlaid and suffused with old ivory, shading off to pale gold at center. Reverse of petals light carmine pink. An early and free bloomer. Stems rigid and straight, dark green foliage and good habit of growth. A superb flower that will rank high amongst prize winning dahlias. Tubers, \$10.00 net. Plants, \$5.00.

JANE COWL. (Downs) A massive deep decorative with petals curled and twisted. Color a glistening bronzy buff and old gold blending to a deeper shade toward center of flower; reverse of petals a pale flesh color, giving the flower, as a whole, a warm glow. A stem of unusual strength holds this giant decorative erect over a plant of ideal growth; foliage thick and leathery; insect resisting. Miss Jane Cowl selected this variety at the A. D. S. Exhibition in New York to bear her name. Also awarded first prize for undisminated seedling and the Garden & Home Builder Sweepstakes Silver Medal. Awarded Certificate of Merit, A. D. S. Trial Garden, at Storrs. Tubers (April 15th delivery), \$15.00.

MY MARYLAND. (Downs) This exhibition Hybrid Cactus is of a decidedly unique coloring, a blending of unusually delicate pink with the faintest suggestion of lavender, the pointed petals whorl and twist in such a manner as to blend the two colors. There are pinks and there are lavenders, but this flower is in a color class of its own. Excellent stems and leathery foliage. Awarded the Maryland Dahlia Society Gold Medal in Atlantic City, hence its name. Also awarded the Garden & Home Builder's Achievement medal. First prize at A. D. S. show in New York for Best undisminated Hybrid Cactus. Certificate of Merit, A. D. S. at Storrs. Tubers (April 15th delivery), \$15.00.

YELLOW PRINCESS. (Fraser) A sensation wherever shown. Without doubt the largest and best yellow decorative Dahlia. Flowers 10 to 12 inches on stiff stems. Won the American Dahlia Society Gold Medal ribbon, 1927, for the best undisminated Decorative Seedling that had been certificated at Storrs Trial Gardens. First prize for largest bloom in show at Providence, R. I., 1927. American Dahlia Society Certificate of Merit, 1926. The Dahlia everyone has been waiting for. Tubers, \$10.00. Plants, \$5.00.

METROPOLITAN. (Mendonsa) In this extra fine large decorative we have what we think the season's best fancy Dahlia. Color a bright crimson evenly tipped white. Bushes grow to a medium height and flowers are produced very freely. Stems are good and hold the flowers up facing you. Tubers, \$10.00, Plants, \$5.00.

CLANSMAN. (Diggle) This decorative won a Certificate of Merit at Storrs, Connecticut, 1926. A grand exhibition flower, and also one of the best cut flowers of its color. It is very free, carrying 6 to 8 blooms, 8 to 9 inches on long, stiff stems. Color, "Judge's decision", a beautiful apricot orange, center darkening to jasper-pink, radiating a golden sheen that instantly attracts the eye. Tubers, \$10.00. Plants, \$5.00.

CITY OF TRENTON. (D) A very large exhibition decorative, held erect on long stiff stems, well above the foliage. An Autumn colored Dahlia of wonderful beauty. The front of the petals shows a rich glowing tangerine, while the reverse is a crushed strawberry red. The gracefully curled petals give a two toned effect, creating an impression of whorls or tongues of flame radiating from a full, glowing center. A superb flower of great beauty. Tubers, each \$10.00. Plants, each \$5.00.

F. T. D. (F. & M.) Named in honor of the Florist's Telegraph Delivery. Large exhibition Decorative. A sport of Trentonian and manifesting the latter's good habit of growth. Tall and free flowering. Color a rich Tyrian rose. Dark green foliage, long ridged upright stems, exceptionally free flowering and a good keeper. We predict that this new variety will win all the hearts of those who see it, either in the field or on the exhibition table, on account of its unique coloring. Tubers, \$7.50. Plants, \$3.75.

JERSEY'S MASTERPIECE. (Waite's) This is a beautiful strawberry pink suffused gold at base of the florets. A bold and outstanding variety. The flower has almost the same formation as the old favorite, Insulinde, but the color is more beautiful. The stems are strong and stiff, and the foliage is thick in texture. The flowers are large and very freely produced. Plants only, \$5.00.

FORT MONMOUTH. (Kemp) One of the giants of the Dahlia World. The predominating color is a rich Crimson Maroon, with shading of blueish Violet at tips of petals. The flowers are well formed of true H. C. type, of immense size, frequently attaining to full 13 inches in diameter, and are borne on long stiff stems high above the foliage, and look you right in the face. Does not burn, and is a splendid keeper, both on the plant and when cut. Very prolific bloomer, from early to late, and is no uncommon thing to see as many as five and six immense blooms on a plant at a time. Plants are a strong, vigorous grower, attaining to a height of 7 to 8 feet. Foliage dark green, healthy, and has been immune to attacks of leaf hoppers. Winner in the class for the largest Dahlia in diameter, at the 1927 Trenton, N. J., Show. Tubers, each \$15.00. Plants, each \$7.50.

GRACE JOCELYN. (Kemp) Dec. The color tones of this beautiful dahlia are begonia rose and deep salmon. Flower is large, full centered, with good stems. Plant is medium height, and is one of the season's beauties. Tubers, \$10.00. Plants, \$5.00.

"JEAN HARE". (F. & M.) A distinctive Exhibition Hybrid Cactus unusually odd in its formation and possessing distinctive charm. In the earlier stages of bloom the color is a beautiful golden yellow; as the flower matures this color is superseded by a gorgeous apricot buff, while the outer row of petals show a golden bronze coloring. This flower attracted an unusual amount of attention both in the field and on the show table. A splendid autumn-colored dahlia that has won its mead of praise both for size and beauty. A free bloomer, medium to tall habit of growth, perfectly rigid, upright stems and fine dark green foliage. Plants, \$5.00.

KEMP'S VIOLET WONDER. (D) Best Violet colored Dahlia to date. The predominating color is a rich Naphthaline Violet, lightening to bluish violet at tips of petals, with lavender reverse. Flower is full eight inches in diameter and 6 inches deep, and about the best keeper, both on the plant and when cut, of any Dahlia I know, the blooms usually lasting in good condition for a week or longer, after they are full blown. Never sheds its petals, neither on the plant or when cut. An early and prolific bloomer. Seedling of Shudows Lavender, but has more refined foliage. Plant is a strong vigorous grower, reaching a height of six feet and over. Tubers, each \$10.00. Plants, each \$5.00.

MABEL GOODACRE. (Goodacre) A new California creation. This large decorative received a Certificate of Merit at Storrs, 1926. CHOICE NAMED VARIETIES OF GLADIOLI

Our customers will note in this issue many new varieties that we have tried out in our gardens and found to be worthy acquisitions. It is our practice each year to obtain plantings of the newer creations in order that our many visitors may have the opportunity to view them while growing in our fields.

CARE AND CULTURE OF GLADIOLI

Do not plant too early, as nothing is gained by planting before the ground is warm. If your soil is heavy plant four inches deep, if light and sandy, six inches is better. Place the bulbs four to six inches apart. Place the bulbs in a well worked trench in zigzag rows, and cover at first about three inches, when shoots begin to appear, work balance of dirt into the trench.

At all times keep the soil loose. If exhibition blooms are wanted Sheep Manure or Fertilizer should be worked in around the plants when hoeing.

At the time flower spikes appear abundant watering is very beneficial. In the Fall dig the bulbs as soon as the leaves turn yellow. Cut stem off half an inch above bulb. Spread bulbs out in the sun and dry thoroughly before storing. Store in a cool dry cellar.
